Sir Syed School | Matric   completed-2019

EXPERIENCE

Interns Pakistan   November-2023 to January-2024

CERTIFICATION

Expertizo | Front-end development

PROJECTS

I have developed several high-quality projects, all of which are deployed on my **GitHub account:**

https://github.com/muhammad-wahaj590

Some notable examples include:

- **NETFLIX CLONE:** Built a responsive Netflix clone using React, APIs, Material-UI, and custom CSS for styling. This project includes login, signup, home, and profile pages mirroring Netflix's interface. Leveraging movie APIs, it showcases real-time movie posters, ensuring a seamless experience across desktop and mobile. Key features highlight dynamic movie posters and impeccable responsiveness.

- **SPOTIFY CLONE:** Built a responsive Spotify Music Website using HTML, CSS, and JavaScript. I integrated all the functionalities of the music player using JavaScript, including play next, play previous, pause, mute, and set the songs to autoplay. Additionally, I designed it to be responsive, ensuring a seamless user experience on any mobile screen size.

- **OMNI FOOD:** Created a Food Website using HTML, CSS, and JavaScript. It features a unique design with custom CSS.
  LINK: https://onmifoodcom.netlify.app

- **CODE CRAFTED:** Designed and implemented a responsive website using HTML, CSS, and JavaScript and Bootstrap that is completely responsive in all devices.
